

UVGI-ES – Sports Ball Equipment Sanitizer

Overview

The UVGI Sports Ball Equipment Sanitizer is a portable disinfectant machine suited for applications where your sports ball is required to be disinfected.

Halton's easy-to-use UVGI Sports Ball Equipment Sanitizer will disinfect your sports equipment in 5-7secs allowing your equipment to remain safe for your teams and students.

Sanitation is almost instantaneous when the chamber is full. Equipment fed into the chamber and retrieved at the removal side has already had sufficient time to be completely sanitized.
