

HRD – Commercial Hood for Residential Ranges

Overview

Halton's HRD commercial hood for residential ranges offers an economical solution for providing protection against cooking fires. The commercial-grade fire suppression is fully integrated within the hood system, making it an ideal option for any cooking space with a residential-style range. The HRD commercial hood for residential ranges combines the look of a traditional hood with a suppression system, that is proven effective by using a mechanical system, a wet chemical agent, hardwired disconnect options, and alarm contacts.
